

## SUSTAINABLE ENERGY PROJECT SUPPORT (SEPS) Regional call in LAC and S/SE Asia 2017 (I)

### SEPS Knowledge Exchange – Application Form

With its 'SEPS Knowledge Exchange' scheme, WISONS facilitates the mobilisation of knowledge and expertise among energy practitioners and other stakeholders in the field of sustainable energy technologies in the 'Global South', with a focus on decentralised energy solutions. Consequently, applications for SEPS Knowledge Exchange support should be directly linked to sustainable energy solutions applying renewable energy technologies.

The proposed SEPS Knowledge Exchange should allow for interaction between practitioners with significant experience in the implementation of decentralised renewable energy solutions in the target region(s). The SEPS Knowledge Exchange may include the participation of experts and organisations from other global regions, although the focus should be on developing and maximising knowledge and expertise in countries in the target region(s).

#### Regional Focus

This call for proposals is aimed at both focus regions of WISONS – Latin America and the Caribbean, and South/South East Asia. The countries considered for this call are those within the Caribbean, South and Central America, South Asia and South East Asia according to the UN definition:

<http://unstats.un.org/unsd/methods/m49/m49regin.htm>

#### Application Procedure

The SEPS knowledge exchange proposal must demonstrate a sound and coherent approach that is in accordance with the specific needs and expertise of the organisations involved. Applicants are, therefore, required to submit the following:

- a completed SEPS Knowledge Exchange application form\*
- a separate budget plan in EUROS
- a timeline and working plan

\* Please DO NOT alter the original pdf document or add additional pages. If you have any problems completing the form, please contact [info@wisions.net](mailto:info@wisions.net)

#### Which activities are eligible as SEPS Knowledge Exchange Activities?

SEPS Knowledge Exchanges facilitate peer-to-peer interactions among practitioners, as well as between practitioners and other relevant stakeholders. The target groups for SEPS Knowledge Exchanges are energy practitioners and organisations, together with other stakeholders, in the Global South (south-south exchange).

SEPS Knowledge Exchange activities should relate to one or more of the following focus areas:

- **Capacity-building:** strengthening technical, managerial, communication or other skills of practitioners.
- **South-South mutual learning:** facilitating mutual learning among organisations active in the Global South.
- **Practice-to-policy exchange:** addressing potentials & barriers to specific energy technologies or delivery models to raise awareness and generate policy recommendations.
- **Advocacy and awareness-raising activities:** defining strategies for the effective advocacy of critical topics; creating awareness for specific technologies and/or challenges relating to sustainable energy; implementing and supporting concepts for motivating the local population.
- **Others:** WISONS is open to creative ideas on how to expand the knowledge base and to strengthen capacities of practitioners as well as of other stakeholders.

## SUSTAINABLE ENERGY PROJECT SUPPORT (SEPS) Regional call in LAC and S/SE Asia 2017 (I)

### SEPS Knowledge Exchange – Application Form

The SEPS Knowledge Exchange proposals should **meet the following criteria**:

- Focus on knowledge creation, conservation, dissemination and/or capacity-building
- Active involvement of at least one organisation with proven commitment in the field of access to sustainable energy
- Experience in and commitment to one of the proposed regions
- Clear focus on South-South exchange
- Clear definition of the knowledge need(s) and gap(s) addressed
- Clear definition of the expected outputs and outcomes
- Relevance to the general aims of universal access to energy and sustainable development.

**The following are excluded from SEPS Knowledge Exchange support:**

- Installation of technical concepts and delivery models (i.e. projects that aim at implementing, testing and monitoring the operation of technical devices)
- Academic research projects
- Feasibility studies
- Long-term training courses
- 'North-South' consultancy and research approaches
- Clean stove dissemination activities

**Aspects to consider:**

The **selected lead coordinating partner organisation** will have to conclude a grant contract with the Wuppertal Institute and **must be authorised to issue invoices** for funds to be transferred.

**Please note: The following form is optimised for Adobe Acrobat Reader ([free download](#)). If you have problems completing it, please contact the WISIONS team ([info@visions.net](mailto:info@visions.net)).**
